Merila za ocenjevanje - 1. korak*

Strateška merila (100 točk)

Relevantnost projekta (40 točk)

Kako dobro je utemeljena potreba po projektu?

V kolikšni meri bo projekt prispeval k doseganju ciljev in kazalnikov programa?

Kako projekt nadgrajuje obstoječe prakse?

Značilnost sodelovanje (15 točk)

Kakšno dodano vrednost prinaša sodelovanje?

Intervencijska logika (15 točk)

V kolikšni meri je struktura projekta verjetna?

Ustreznost partnerstva (30 točk)

V kolikšni meri je sestava partnerstva pomembna za predlagani projekt?

*V skladu s programskim priročnikom, Annex IIa

Primer 1: H2MA -

Green Hydrogen Mobility for Alpine Region Transportation

Interreg
Alpine Space

Co-funded by
the European Union

1. Relevantnost:

- ✓ prispeva k prednostni nalogi programa SO2.1
- ✓ prispevek k EUSALP AG4 in AG9, s pobudami, katerih namen je razviti rešitve na področju zelenega vodika in mobilnosti. Prav tako Evropski zeleni dogovor in Alpska konvencija

2. Značilnost sodelovanja:

- ✓ Dobro opredeljeno transnacionalno sodelovanje (aktivnosti)
- ✓ Pilotske aktivnosti so osnova za razširjanje rezultatov na območju programa

3. Intervencijska logika:

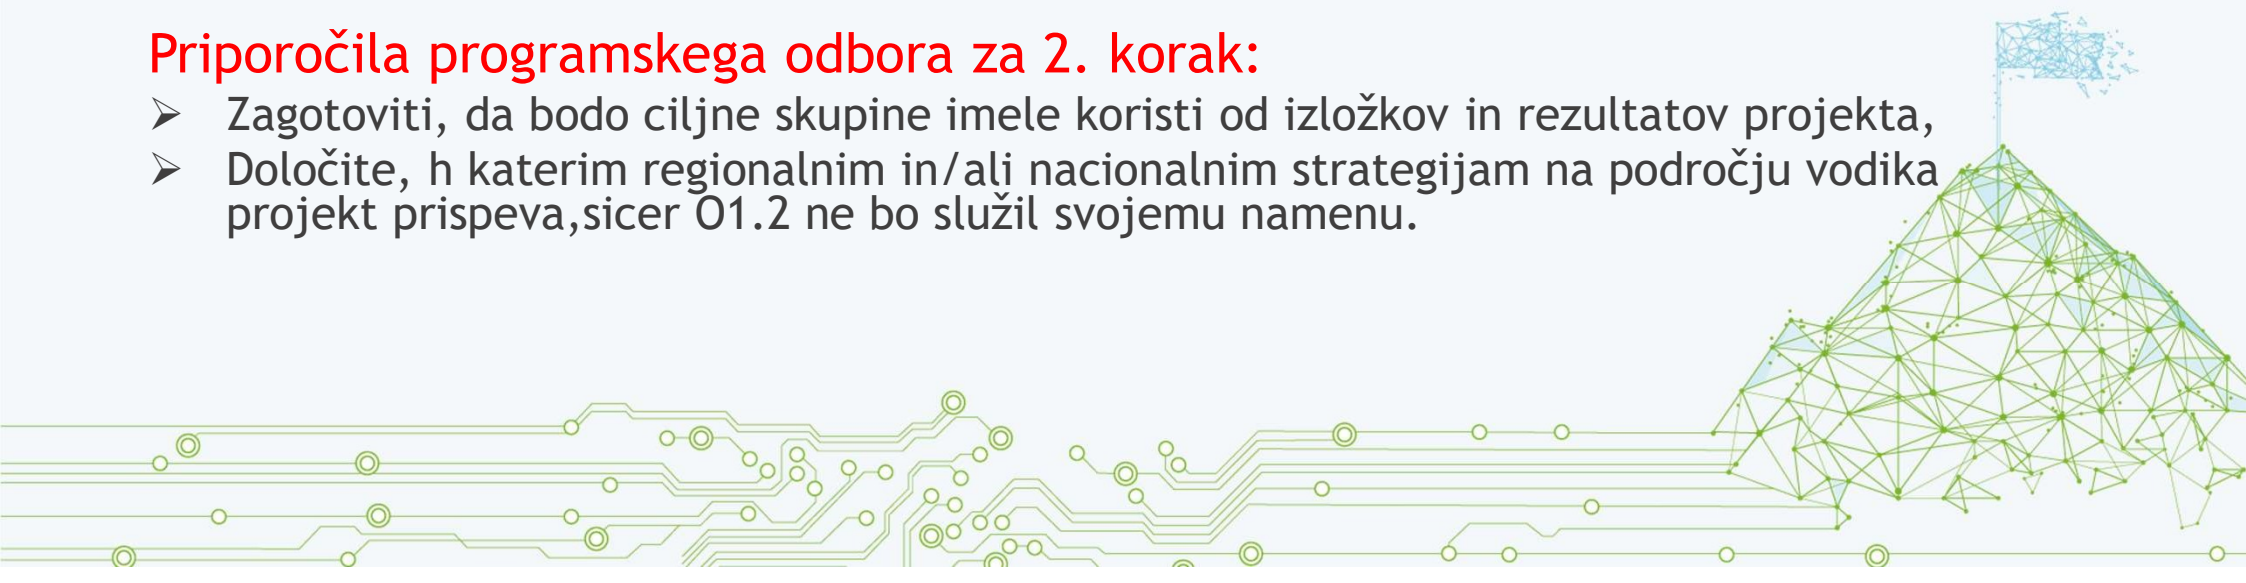

- ✓ Cilji, izložki in rezultati kažejo močno strukturo projekta

4. Partnerstvo:

- ✓ Uravnoteženo (geografsko) in med različnimi sektorji
- ✓ Izbira partnerjev je ustrezna glede na zastavljene cilje in aktivnosti

Priporočila programskega odbora za 2. korak:

- Zagotoviti, da bodo ciljne skupine imele koristi od izložkov in rezultatov projekta,
- Določite, h katerim regionalnim in/ali nacionalnim strategijam na področju vodika projekt prispeva, sicer O1.2 ne bo služil svojemu namenu.

Primer 2: „Alps4Real“

1. Relevantnost:

- Pomanjkanje jasne vizije in osredotočenosti na konkreten problem.
- Pomanjkljiv/ni povezave z EUSALP AGs, drugimi regio/nacionalnimi/EU politikami, Alpska konvencija

2. Značilnost sodelovanja:

- Pomen transnacionalnega pristopa k obravnavani temi ni opredeljen in se ne odraža v načrtovanih glavnih aktivnostih.
- Projekt ne prikazuje, kako se bodo predlagani rezultati in učinki koristili izbrani ciljni skupini

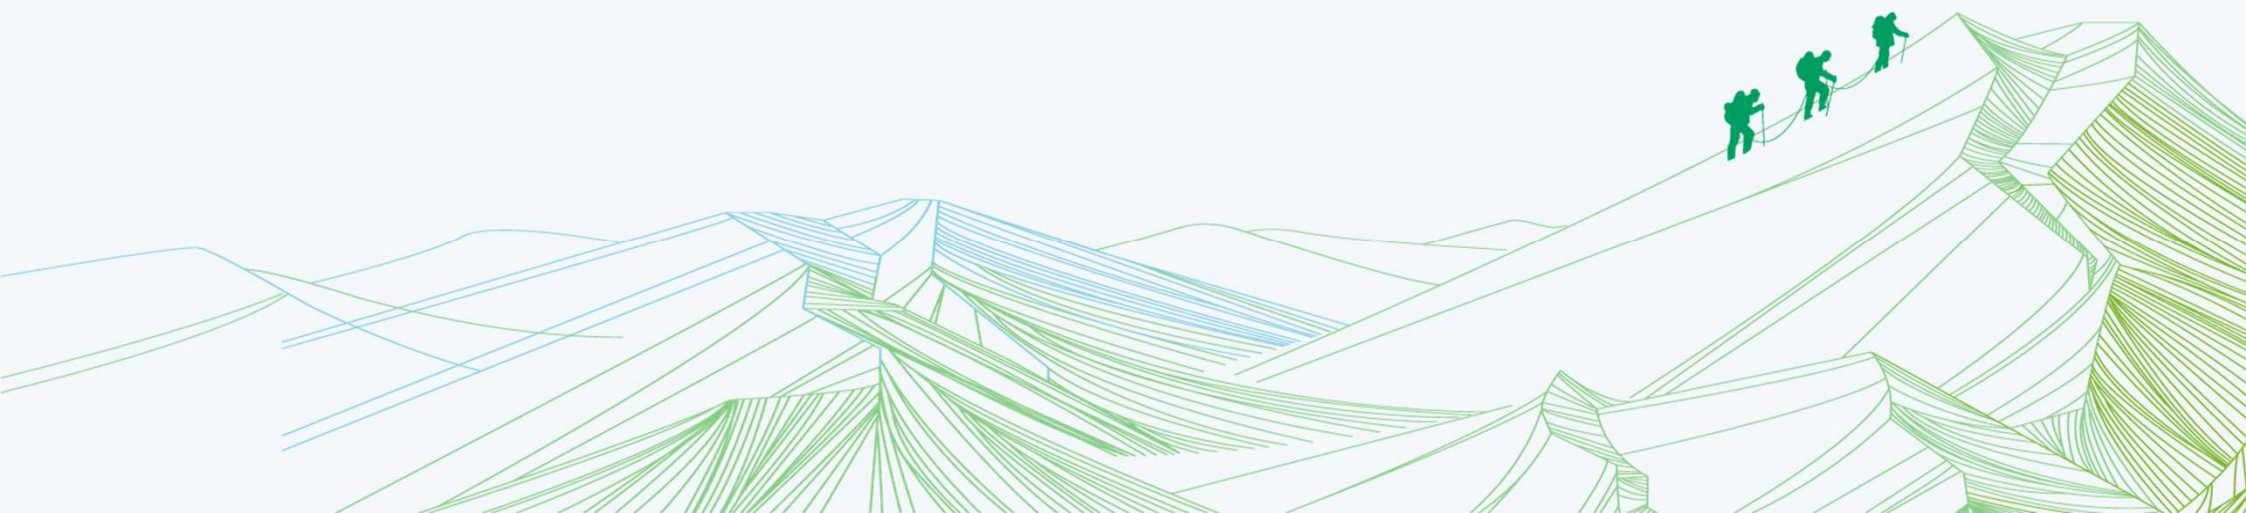

3. Intervencijska logika:

- Predlagani cilji, izložki in rezultati nimajo zadostne dodane vrednosti na področju, ki ga obravnava predlog projekta.
- Predlagani rezultati imajo zelo omejen aplikativni vidik (v glavnem povezan s tremi pilotnimi projekti), pričakovani teritorialni učinek pa je majhen.

4. Partnerstvo:

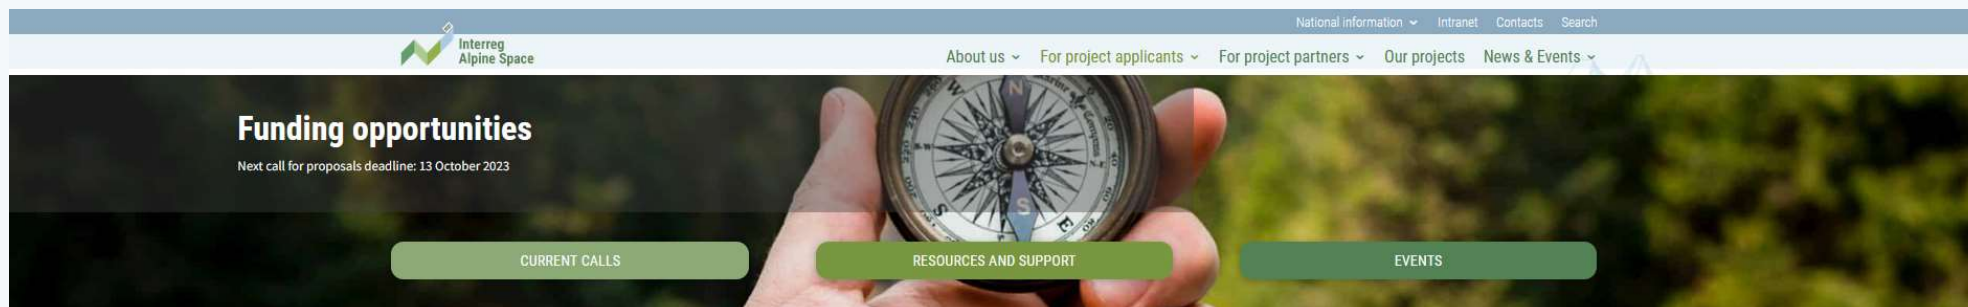

- Ustreznost partnerstva ni dokazana.
- Omejena geografska pokritost območja sodelovanja (4 države, vendar 6 od 9 partnerjev pokriva le Italijo in Slovenijo) - ne zagotavlja transnacionalne dodane vrednosti.

How to apply?

Applications for funding can be submitted during calls for project proposals.

Calls are opened every 12 to 18 months, with the publication of terms of reference describing the programme's expectations.

- Project proposals can be submitted as of publication of the terms of reference until a pre-defined deadline.
- Calls are open generally for about two months.
- Applications have to be submitted via the Joint Electronic Monitoring System ([Jems](#)).

The programme co-finances both small-scale and classic projects. Classic projects are selected following a two-step application procedure and small-scale projects will be selected following a one-step procedure. Find more information about the current calls for proposal below!

Jems Guidance

What is Jems?

The Joint Electronic Monitoring System (Jems) is a tool for project applicants and project partners to **create** and **submit application forms**. It also allows the programme bodies to **monitor the implementation** of the projects as well as of the programme itself. It should be noted that Jems is not a management tool for project partners.

Jems is the successor to the electronic Monitoring System (eMS), created by Interact to support project application and monitoring in 2014-2020, to harmonise the management of Interreg programmes.
